

1. Deal out 6 cards to each player.
2. The goal is to possess groups of three ('triplets') of the same cards.
3. One player begins by asking the group the question on his/her card:

Schreibt Tanja einen Brief?

4. If any player has the card in question, then they must answer with Ja and give the card to the requesting player:

Ja, Tanja schreibt einen Brief.

*(Give the card(s) in question.)*

5. If no player has the card, then they should answer with Nein. The requesting player then draws a card from the stack.
6. When you have a group of three of the same cards, place them on the table in front of you. **The winner is the player with the most 'triplet' groups.**
