

Umweltprobleme auf der ganzen Welt. *You and your partner each have a map of the world with environmental problems listed for several countries. Ask your partner about the missing information on your map, and give your partner the information they need to complete their map. Make sure you also know what the problems listed mean!*

A

Student A: Welches Land hat Probleme mit Smog?

Student B: Mexiko hat Probleme mit Smog. Und auf deiner Karte?

Student A: Großbritannien hat auch Probleme damit.
